✉️ ezhilarsn089@gmail.com

Programmer Analyst

8.5 years of testing experience including UI, Customer Relationship Management, Functional, Mainframe and 2.5 years of hands-on experience in Selenium Web driver Automation, REST API and 1.5 years of Service-Now Automation Testing. 2 years' experience in telecommunication using cypress automation and 6 Months Experience in Automation Tool Development using Java framework.

🎓 Education

Masters, Computer Science	Graduated, July 2012
The Madura College	Marks 68.5%
Bachelor, Information Technology	Graduated, July 2010
PKN Arts & Science College	Marks 68%

⚙️ Professional Qualifications and Affiliations

- 8.5 Years of industry experience in Software Testing (Manual and Automation) with a solid understanding of Test Planning, Test Design, Test Execution and Defect Reporting & Tracking.
- Expertise in Understanding and Analyzing Test Requirements, Tracking changes and maintenance of Test Requirements.
- Executing Test Cases and Reporting defects and Expertise in implementation of Automation framework using Cypress with JavaScript.
- Well acquainted with all phases of SDLC and STLC and Proficient in Test Automation using Selenium Tool.
- Strong Experience in Automating Web Application Testing using Selenium WebDriver with TestNG framework.
- Strong Experience in Java Programming, Selenium WebDriver and TestNG and Well versed with Handling Elements in Selenium WebDriver.
- Writing Test cases using Element locators, WebDriver methods, Java programming features and TestNG Annotations.
- Executing Selenium Test Cases and Reporting defects and Expertise in implementation of Automation framework using Selenium.
- Experience in Hybrid Framework Testing, Cross browser testing and Parallel Test execution using Selenium WebDriver, TestNG.
- Strong Experience in Banking Application, US Healthcare concepts, medical benefits, Web services and Involvement in Test Estimations and Test strategy implementation.
- Proficient in devising all the artifacts of testing such as Test Scenarios, Test Cases, Defect Reports and Test Summary Report.
- Self-motivated, energetic, and highly ethical in all work-related assignments thus able to immediately contribute to corporate goals and objects.
- Good written, communication, interpersonal skills, proven team player with an analytical mind bent to problem solving and delivering solutions.

🏅 Career Highlights

- Awarded Opel and Wow Award more times for the best performer for the month/quarter in Cognizant.
- Innovated Work Status Tracker, Leave Tracker, Online Test Tracker, Gemba Tracker, Defect Tracker.
- Innovated Qualifier Calculator Tool – Effective date converted to NASCO qualifier Date within a second which has the innovation value of $1442.00.
- Innovated Anthem Standard Template – without using the NASCO application for checking the standard benefits which has the innovation value of $844.00.

🏅 Certificates

- Completed PHP with MYSQL in phphub.in Chennai.
- Completed Selenium Web driver Automation course in Fu-Vision Training solutions Coimbatore.

🏅 Skills

- Languages   : JAVA, PHP, JS
- Databases   : MYSQL, Teradata
- Automated Test Tools   : SELENIUM,CYPRESS, WEBDRIVERIO, SERVICENOW,UFT,SOAPUI
- Test Management Tools : GITHUB,GRID,ALM , TFS, RALLY, WINSQL
- Bug Tracking Tools   : JIRA
- Web Technologies   : HTML, XML,JSON

💼 Work Experience

2021 - Current
Automation Lead
Accenture India Pvt ltd

Project # 1 NBN
Client: NBN
Testing Approach: UI Automation Testing
Tools Used: Cypress, JIRA,
Application: Next Gen Portal
Role: Software Engineer.

The company offers consumer financing products, including credit, promotional financing and loyalty programs, installment lending, and FDIC insured savings products through Synchrony Bank, its wholly owned subsidiary.

Responsibilities:
- Creating Test scripts using TestNG Framework by each individual module.
- Preparing Test Scenarios, Test case documentation and test data collection, Tests Execution, Reporting Defects and maintaining scripts.
- Responsible for UI, Functional and Regression Testing.
- Understanding the Business Requirement Specifications and analyzing the changes.
- Logging the efforts for each task in JIRA Tools.
- Conducted Functional testing with Valid and Invalid inputs for positive and negative testing.
- Preparing Defect report as per severity and priority Active participation in Bug triage meetings.
- Attended Project meetings and interacted with other team members in order to resolve problems.

2013 – 2018
Programmer Analyst
Cognizant Technology Solutions

Project # 2 System Integration & Customer Relationship Management
Client: Cigna
Testing Approach: Automation and API Testing
Tools Used: Selenium, Postman, SoapUI, Teradata, Java, Rally, WinSQL
Role: Test Engineer.

Description:
Cigna is an American worldwide health services organization based in suburban Bloomfield, Connecticut and Philadelphia, Pennsylvania. Its insurance subsidiaries are major providers of medical, dental, disability, life and accident insurance and related products and services.

Responsibilities:
- Involved in Automation Test Plan Preparation and Test Design Based on the Use case Specifications.
- Generating Test Scenarios, Test case documentation and test data collection, Tests Execution, Reporting Defects Using ALM and Compatibility Testing.
- Responsible for GUI, Functional and System Testing.
- Performed Database Testing using Teradata to check the Data Validation and Data Integrity.
- Understanding the Business Requirement Specifications.
- Conducted Functional testing with Valid and Invalid inputs for positive and negative testing.
- Preparing Defect report as per severity and priority Active participation in Bug triage meetings.
- Attended Project meetings and interacted with other team members to resolve problems.
- Created Test cases Using Element locators and Selenium Web driver methods.
- Enhanced Test cases using Java programming features and TestNG Annotations.

Project #3 Care first
Client: Care first
Environment: JAVA, HTML, XML, Oracle.

Testing Approach: Manual And Automated.
Tools Used: Selenium, ALM
Role: Test Engineer.

Description:
CareFirst BlueCross BlueShield is a not-for-profit, a non-stock health service company which, through its affiliates and subsidiaries, offers a comprehensive portfolio of products and administrative services to individuals and groups in Maryland, the District of Columbia, and portions of Northern Virginia.

Responsibilities:
• Involved in 'Module Test Plan' Preparation and Requirements Streamlining.
• Preparing Requirement Traceability matrices for new business Module.
• Involvement in Test Design includes Test Data preparation and Reviews.
• Responsible for GUI and Functional Testing, using Black box Testing Techniques.
• Involved in Automation Environment setup using Eclipse, Java, Selenium WebDriver jars and TestNG and designed Test cases Using Selenium Web driver and TestNG.
• Execution of Tests, Regression Testing, Cross browser testing using Selenium and Reporting Defects Using ALM.
• Involved in solving Environmental problems along with Technical Support People, especially in Sever Connections and Database sharing issues.
• Preparation of weekly and monthly status reports.

Highlights:
• Involvement in Automation Environment Setup Using Eclipse, Java, Selenium Web Driver Java language bindings and TestNG jars.
• Preparation of Selenium WebDriver Corporate Material.

Project #4 Anthem OBN (Online Benefit Narrative)
Project Type: Medical Benefits
Client: Anthem Services
Technology: VB, MS Access
Testing Approach: Manual and Macro
Tools Used: Mainframe, Bugzilla, and Bug Tracker.
Role: Test Analyst

Project description:
American Health Insurance Company and largest for-profit managed health care company in the Blue Cross and Blue Shield Association. Providing medical benefits widely to their customers with multiple benefits and lower costs.

Responsibilities:
• Involvement in Preparation of System Test Plan Preparation and Requirements Streamlining, Test Procedures, Test Scenarios, Cases and Test Data, Test Execution, Results Analyzing, Defect Reporting, RTM Preparation.
• Responsible for GUI and Functional Testing, using Black box Testing Techniques.
• Involved in Macro Development using Visual basic.
